

— FOCUSPOINT NEXUS • BUSINESS STRATEGY PLATFORM

The platform that thinks *ahead*.

FocusPoint Nexus doesn't just show you where you stand — it tells you **what happens next**: projecting where every goal will land, running your team on a weekly rhythm, aligning every department top to bottom, and putting AI teammates to work on what matters most. Every one of these is available today.

— WHAT FOCUSPOINT NEXUS DELIVERS

1

Know the outcome before the quarter closes

✓ AVAILABLE NOW

Every goal and metric gets a live projection to period-end — so you can see today whether you're on track to hit your numbers, with early warnings that arrive while there's still time to act on them.

2

Run the business on a rhythm

✓ AVAILABLE NOW

A guided weekly review keeps your goals, metrics, and open issues moving forward together — and your AI assistant arrives with the agenda already prepared and last week's decisions captured.

3

Every team pulling in the same direction

✓ AVAILABLE NOW

Company goals flow all the way down to each department and each person, with a live line of sight from the front line to the boardroom — so everyone can see exactly how their work rolls up.

4

AI teammates that move the work forward

✓ AVAILABLE NOW

Your agents take action — following up on what's slipping, drafting the updates, posting the weekly digest to your team, and connecting every strategic win back to real revenue.

GROUNDED IN YOUR NUMBERS

Your strategy reads straight from **live business and financial data** — every figure ties back to what's actually happening.

AN AI BRAIN, NOT JUST DASHBOARDS

A built-in intelligence that **understands your business**, answers your questions, and gets sharper with every use.

A PLATFORM THAT COMPOUNDS

Each quarter it learns what works and does more of it — **more valuable the longer** you run on it.

— THE INTELLIGENCE UNDERNEATH

Everything above runs on a foundation most platforms don't have — a **living model of your business**. FocusPoint Nexus organizes what you know, connects it into meaning, and puts an AI brain on top that any team can simply ask.

AGENTS & SKILLS • THE HANDS

Teachable skills and autonomous agents that put the intelligence to work — each one trained on how your business runs, getting more capable every time you use it.

ASK AI • THE BRAIN

Ask anything in plain language and get an answer grounded in your real business — not a generic guess. The brain that understands your numbers, your goals, and your history.
